U.S. Department of Health and Human Services: Public Comments on EMF Health Risks

Electromagnetic Radiation Safety, November 16, 2026

On September 19, 2026, the U.S. Department of Health and Human Services requested public input regarding health risks from non-ionizing electromagnetic fields (EMF) by October 21, 2026:

> "Consistent with the Department of Health and Human Services' emphasis on evaluating environmental factors that may affect human health, particularly among children and other potentially vulnerable populations, HHS seeks information on electromagnetic field (EMF) emissions and exposure, particularly RF and wireless, and human health.
>
> **Docket ID: HHS-OASH-2026-0397**

Two organizations uploaded much of the research literature. These papers are accessible by clicking on the links:

Of the 7,000-plus submissions, many are listed below under the following categories:

- Expert Comments in Support of Stronger Regulations
- Expert Comments in Support of Current Regulations
- Health Professionals
- Consumer, Environmental and Safe Technology Organizations
- Commercial and Industry Organizations and Associations
- Miscellaneous Other

The comments and supporting materials are available at the links below.

The list is available at: **https://www.saferemr.com/2026/11/us-department-of-health-and-human.html**
